

THALES SGARBI SALATA

DevSecOps & Information Security | DevOps | Web Development

Curitiba, Brazil · thales.salata@gmail.com · linkedin.com/in/thales-sgarbi-salata · github.com/Taresu

PROFESSIONAL SUMMARY

Information Systems graduate (B.Sc., UTFPR — graduated Jul 2026) with hands-on experience in DevSecOps, corporate cybersecurity, infrastructure automation, and web development. Works on vulnerability analysis, risk management, and Unix-based automation, guided by OWASP Top 10, MITRE ATT&CK, and the Cyber Kill Chain. Seeking opportunities in DevSecOps and Information Security.

PROFESSIONAL EXPERIENCE

Full Stack Developer — UTFPR (part-time) Mar 2026 – Present

- Develops and maintains the UTFPR Portal with Plone 6 and Volto — integrating the React/Volto frontend with the Plone backend, aligned with the Gov.br Design System v4.0; refactors and modernizes legacy code.
- Investigates issues across application, services and environments; handles security fixes, technical documentation, and CI/CD pipeline maintenance on GitLab.

DevOps Intern — Curitiba City Council (Câmara Municipal de Curitiba) Mar 2025 – Jul 2026

- Automated the migration of ~370 VoIP phones from static IP to DHCP using Python (Selenium and requests), eliminating device-by-device manual configuration.
- Architected Unix-based open-source solutions with Ansible, Vagrant and Molecule; applied vulnerability fixes guided by the OWASP Top 10.

Frontend / Web Developer — UTFPR (part-time) Sep 2025 – Jul 2026

- Built reusable components in React and Volto, implemented responsive and accessible layouts, and refactored legacy components and code in the UTFPR Portal.

Information Security Intern — Volkswagen do Brasil May 2024 – Feb 2025

- Worked on vulnerability analysis, risk management, and audit-point follow-up (ISO 27001); supported IAM processes (Active Directory); operated Axur and Prisma Cloud (AWS) in a SOC context.

IT Intern — Volkswagen do Brasil May 2023 – Apr 2024

- Supported IT operations at the FIS Competence Center, handling operational routines and technical support in a corporate environment.

Assistant Webmaster Intern — UTFPR May 2022 – Apr 2023

- Built and maintained institutional websites, layouts, and digital content, supporting social media and technical support.

VOLUNTEERING

Volunteer Coordinator — VESPAS (UTFPR Cybersecurity Extension Program and CTF Team) Jan 2025 – Present

- Coordinates the official security-alerts channel, covering critical vulnerabilities (CVSS 10.0) and Information Security awareness.
- Competes in CTFs and develops in-house labs/challenges; currently focused on OWASP Top 10:2025 and OWASP LLM Risks, grounded in MITRE ATT&CK and the Cyber Kill Chain.

TECHNICAL SKILLS

Security: OWASP Top 10, MITRE ATT&CK, Cyber Kill Chain, vulnerability analysis, risk management, Kali Linux (Nmap, Burp Suite, Metasploit), Wireshark, SIEM.

DevOps: Linux/Unix, Ansible, Vagrant, Molecule, Git, CI/CD (GitLab), AWS, cloud computing.

Development: Python, JavaScript, React, Node.js, Java, C, HTML/CSS, Tailwind.

Languages: Portuguese (native); English (intermediate); Spanish (basic).

EDUCATION

B.Sc. in Information Systems — Federal University of Technology – Paraná (UTFPR) Graduated: Jul 2026

CERTIFICATIONS & ADDITIONAL TRAINING

- Cisco Networking Academy — Endpoint Security, 27h (2024).
- Cisco Networking Academy — CyberOps Associate, 70h (2022).
- Cisco Networking Academy — Cybersecurity Essentials + CCNA1 (ITN), 100h (2021–2022).
- Conquer Business School — Emotional Intelligence 2.0, 15h (2022); Productivity & Time Management, 15h (2022).
